Using the TuneFan on Mac Computers

1. Connect the TuneFan to your Mac with the USB Cable(included)
2. Go to "System Preferences" and select "Sound".
3. Under Output, please select Macally TuneFan as sound output device.
4. You may adjust the speaker volume within the Mac system

Using the TuneFan on PC Computers

1. Connect the TuneFan to your PC with the USB Cable(included)
2. Once the TuneFan is connected to your PC, the system will automatically set TuneFan as the default speaker.
3. Please use the Windows volume control to adjust the speaker volume.

Using the TuneFan AUX Port

The TuneFan also supports MP3 player, CD player, and Cassette tape player through it's AUX port.
1. To use the TuneFan via its AUX port, first switch the TuneFan to "ON" position.

5

Using the TuneFan AUX Port

2. Then, connect your music player into the 3.5 mm AUX jack with a 3.5mm audio cable(not included).
Note: the AUX connection will automatically disable audio function from the USB port.

Applying the Rubber Pad

Applying the rubber pads onto the premarked location is highly recommended, as the rubber pads will provide additional space for best cooling result to your notebook computer.
1. To apply the rubber pads, locate the 2 premarked rubber pad location on the TuneFan.
2. Remove the adhesive backing sheet from the rubber pads, and paste the rubber pads onto its premarked location. Please be sure to apply both of the rubber pads included in this package.

Installation and Operation

Cooling Fan
The cooling fan can be powered by either your notebook's USB port or AC adapter (included), please be sure to turn on the fan by switching to "FAN" position.

2.1 Stereo Speakers
The 2.1 Stereo speakers can also be powered by either your notebook's USB port or the AC adapter (included). However using the AC adapter is highly recommended for maximum amplifier output. To use the stereo speakers, simply connect the USB cable to your notebook's USB port.

Switch Control
• To use the stereo speakers only, please switch to "ON" position.
• To use both the stereo speakers and the cooling fan, please switch to "FAN" position.
• To turn off both the speaker(amplifier) and the cooling fan, please switch to "OFF" position.
• To remove the TuneFan speakers from your computer system, simply disconnect the USB cable
